Woman Without Faith a Mental Monstrosity

BY ELLA WHEELER WILCOX.

Jury Finally Obtained in the Rosenberg Murder Case; Mullen Identified.

The trial of W. E. ("Red") Multen, charged with some physical deformity. A spiritual quality is far more important to the murder of Maurice Rosenberg, a wealthy jurk dealer, whose body was found buried in an embankment of an irrigation ditch.

A spiritual quality is far more imported and in the make-up of an admirable woman than areast intellectuality.

Men may not so express themselves since men are afflicted with cowardies in these matters, but however materialistic a man may be, ha is rewelled by atheistic materialism in woman.

The woman who finas herself questioning the existence of an overruling power in this great universe should endeavor to cultivate the spiritual quality, and to put her mind in touch with the strong souls who have solved these questions to their own satisfaction.

Sir Giver Loade, one of the reading men in the scientill world today, may will be listened to when he says: It rell you with all the strength and conviction I can muster that we do perceit after death, and that those who have passed on before us communicate with us, and that i have talked with friends of mine on the other side. I know that man is surrounded by other intelligence himself. Once having one berood man you go on and must go on until you come to God.

You will like the taste of

Cottolene-cooked foods In addition to making food better, Cottolene makes it taste better-gives it more appeal to the appetite-a relish that

cannot be obtained with any other shortening or cooking fat. Cottolene is itself a choice pure food product. It consists of the most highly refined cottonseed oil, combined with selected beef stearine.

Attempts to imitate Cottolene and to produce substitutes for it have failed because only a specially refined highest grade cottonseed oil is used exclusively in Cottolene, and the beef stearine is from choice leaf beef suet.

Cottolene

has for a quarter of a century been a leader among pure food products. Its supremacy over all other shortening and cooking fats remains unchallenged.

Insist upon getting real Cottolene, and satisfaction must be yours. Make your biscuits, your pies and your cakes more tempting, more pleasing to the palate, more easily digested, by using Cottolene for shortening.

For frying, use Cottolene over and over. It does not absorb tastes or odors. Always heat

it slowly and use one-third less than of any other shortening or frying fat.

It is always ready for instant use. No chopping or crushing is necessary. It mixes readily with flour and creams up beautifully.

Pails of various sizes, to serve your convenience. Arrange with your grocer for a regular supply.
